TOP SECRET**PREFACE**

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This storage facility is located 8 kilometers (km) southwest of Pskov (Figure 1) and is composed of 2 general storage areas, 1 ammunition storage area, and 1 administrative/troop housing area.

The installation, situated in a partially wooded region, covers approximately 200 acres, and contains 3 administrative, 13 support, and 24 storage buildings and 17 tents/tent bases. Two of the storage areas are double fenced

and are surrounded by firebreaks (Figures 2 and 3).

This facility probably serves Pskov Army Barracks West, 6 km northeast, and Pskov Army Barracks Cherekha, 7 km east.

[redacted] missions of interpretable photography, from [redacted] were used for comparative analysis. No significant changes were observed during this period, and the installation appeared active.

DESCRIPTION OF INSTALLATION

Railroad Service

An abandoned rail spur off the Pskov-Pechory rail line passes through the installation.

Road Service

A primary road from Pskov serves the installation.

Administration and Troop Housing Areas

Area D1 contains 3 administration-type buildings and 13 support buildings.

Area D2 contains 17 tents/tent bases.

General Storage Areas

Area E1 contains 8 storage buildings. Seven buildings are within a double-secured area and are surrounded by a firebreak. Each building has a tall pole or tower (probably for

lighting) in the immediate vicinity. Much track activity surrounds 3 of the buildings. One building is within a fenced area adjacent to the larger one.

Area E2 contains 10 probable storage buildings. Located within the area are unidentified ground scars, some of which appear to be small mounds. An unoccupied 6-gun AAA position is located east of the area. Another is located just to the southwest (not shown on graphic).

Ammunition Storage Area

Area F, which is double secured with a perimeter firebreak, contains 6 probable ammunition buildings with blast walls at one end. At each end of the buildings there is a V pattern on the ground. Construction activity is apparent.
